DOCUMENTING MOTHER NATURE'S MOST EXTREME WEATHER

Follow along and see some of the most extreme weather around the world, watch from the beginning, to the aftermath.

CATEGORIES:

HURRICANES

FLOODING

VOLCANOES

TORNADOES

WINTER WEATHER

WHAT WE DO

WxChasing follows award winning videographer Brandon Clement around the globe in pursuit of Mother Nature's wrath. We cover weather extremes from tornadoes, hurricanes, flooding, blizzards, volcanoes and even climate change impacts. Our goal is to tell the story through our lens. Little commentary and lots of impacts. Along the way, we always try to help. That help can be little things such as pulling out a stuck vehicle or bringing hot food to someone in need during a disaster to big things such as fundraising projects for people that have lost everything or search and rescue after a major disaster. We always try to be mindful of the people being impacted and try to find creative ways to help.
